WHY SURFACE AMERICA?

Long-standing expertise, highly respected business practices, proven systems, superior craftsmanship and maximum performance.

Surface America has the complete skill set, from concept to completion. Partner with us and together we'll deliver excellence - every time.

Our Exceptional Value Equation

Surface America is a subsidiary of Pennsylvania-based Ecore International. As an Ecore company, our capabilities are broad, our bonding capacity is great, our financial strength is sure, our products are best-in-class, our warranties are superior and our approach to business is responsible. Ecore is also a primary manufacturer of many of Surface America's product components, such as the ColorMill® EPDM granules. The combination of Ecore's manufacturing expertise and Surface America's contract management & installation strength is powerful, bringing needed turnkey options to the client.

Ecore is the only vertically integrated manufacturer in the playground surfacing industry. Its ColorMill® EPDM rubber yields the industry's most vibrant colors, a terrific complement to Ecore's highly engineered manufacturing process. The highest standards in colorfastness and consistency, as well as general product quality and innovation, have driven Ecore to an unquestioned leadership position. Its proprietary tile lamination process and EPDM manufacturing capabilities have created a terrific complement to Surface America's specifications and service level.

SURFACEAMERICA®

The Widest Collection of Recycled Materials

Every Surface America product and system is designed and manufactured with long-term performance in mind. We select the best material components available and design each surfacing & flooring system with the characteristics necessary for the application.

A COMMITMENT TO
AMERICAN MADE

All Surface America products and systems are manufactured in the U.S.A. and feature materials sourced from the United States.

Coast-to-Coast Installation & Construction

Since 1993, Surface America has completed thousands of projects and installed millions of square feet of recreational and athletic surfacing & flooring. Our projects are built to specification and guaranteed to meet expectations. As such, we commonly fill the role of contract holder, project manager and certified installer.

From Concept To Completion

Surface America has the expertise and experience to play a significant role on your overall project. Our staff can assist in design and planning, and manage the construction process as it relates to the installation of surfacing & flooring for recreational and athletic applications.

Our expertise, experience and product offerings make us uniquely qualified to build your vision into a reality.

PLAYGROUND SURFACING

The choice is yours when it comes to IPEMA-certified & ADA-compliant systems.

Surface America playground surfacing systems meet critical fall heights up to 13 feet per ASTM F-1292, which is the industry's standard test to evaluate a surfacing system's ability to absorb shock. They also conform to the requirements of the Americans with Disabilities Act and ASTM F-1951 Determination of Playground Surface Accessibility.

PLAYGROUND SURFACING

The most complete line of bound playground surfacing in the world: poured-in-place, turf & tile.

Turf

PlayBound™ Poured-in-Place comes with a 7-year or 10-year warranty. The 2-layer rubber system has virtually unlimited design possibilities.

EverTop™ is the top layer of that surface, and is commonly used in play areas outside of equipment use zones to achieve aesthetic consistency at a lower cost.

PlayBound™ TurfTop™ has a natural grass look with no maintenance and world-class toughness.

UltraTile™ Play is an ultra-durable top wear layer bonded to a resilient underlayment. Its expected life is more than 100% longer than other rubber playground tiles.

WATER PLAY SURFACING

A breakthrough, high-performance solution for outdoor & indoor water parks, splash pads and pool surrounds.

AquaFlex® is the premier water play surfacing choice, and is available in porous and non-porous versions. Millions of aliphatic thermoplastic pebbles are bonded together to create a comfortable, durable, non-skid surface. Its unique chlorine resistant and UV light stable properties keep your water play surface looking beautiful for the long haul – guaranteed! Permanent designs, themes, patterns, borders and logos enhance the water play environment.

AquaFlex® is a Landscape Structures product provided by Surface America.

OTHER INDOOR FLOORING

Impact-absorbent & slip-resistant flooring designed for heavy-duty use in gymnasiums and fitness areas.

Poured urethane
layers over rubber
basemat system

From a seamless poured urethane over rubber basemat floor for gymnasiums and field houses to rubber and synthetic turf fitness flooring that provide excellent acoustics and ideal ergonomics. Surface America also offers some of the industry's best-performing and most durable rubber flooring for high-traffic and specialty applications.

Poured & roll rubber,
synthetic turf

100% post-consumer
recycled rubber roll

OTHER OUTDOOR SURFACING

Resilient, high-performance surfacing for every imaginable setting and use, including resilient tennis courts and all-purpose areas.

I-shaped rubber pavers

In the world of tennis, Surface America offers acrylic hard court surfacing that delivers exceptional footing, true ball bounce and outstanding resilience with cushioned systems. Or choose the Wimbledon style and natural look of synthetic turf. Also featuring resilient rubber rolls, pavers and poured-in-place systems and synthetic turf for specialty outdoor applications.

Multi-layered acrylic surface over ShockPad

Synthetic turf bonded to foam pad

Surface America is the exclusive poured-in-place and synthetic turf surfacing partner of The Miracle League.

A-Turf

(SISTER COMPANY) Synthetic turf athletic fields, recreational and play areas across the nation: from Little League baseball to professional football, college single-sport stadiums to high school multi-sport fields, public or private indoor practice facilities to outdoor tournament complexes, school play areas to municipal open- or high-traffic areas.

THE WORLD OF SURFACING FOR RECREATION AND ATHLETICS IS FULL OF POSSIBILITIES.

Each Surface America surfacing & flooring choice has the potential to significantly enhance the facility ... and enjoyment by those who use it. Since 1993, our mission has been to combine the best material components with old-fashioned client service. That mission, after more than 25 million square feet of surfacing & flooring installations, remains steadfast. It's how we've earned the reputation as having the industry's best value. **May we go to work on your next project?**
